

# Employee feedback

Do you know how much your employees' satisfaction impacts your business?

## Employee turnover in healthcare is a growing problem

For every 2 points increase in employee engagement scores, there is a 1 point increase in patient satisfaction scores

of hospital and health care system CEO's consider physician engagement as their best opportunity to improve performance and among their top 3 priorities

of nursing staff will leave their current positions within the next 3 years on average

## Financial impact to your organization

**\$2M** Turnover cost per physician

**2x**

It can cost up to 2x annual salary to replace an employee within a healthcare setting. In other words, retention of employees is SIGNIFICANTLY cheaper than rehiring for a position
